

ANNOUNCEMENT

AkzoNobel Aerospace Coatings and Aviocom sign Distribution Agreement

On the 10th of October 2008, AkzoNobel Aerospace Coatings B.V. (ANAC) and Aviocom B.V. have signed an agreement under which Aviocom will supply the ANAC product range to clients in the Benelux.

Mr. J.C.M. Gerrits, Mr. J.R. Klockenbrink, Mr. HJ van Puffelen

"This distribution agreement with Aviocom will allow us to leverage their broad product portfolio with the aim for a one-stop-shop+distribution network to continue to support our clients with the world-class customer service they have come to expect from ANAC. It will also allow us to more effectively manage our inventory and supply chain activities," said Hendrik-Jan van Puffelen, Sales Manager ANAC. " This will benefit our customer base by ensuring that a full range of technical, environmental, application and logistic support is provided for the ANAC product range and other aerospace requirements. This forward looking move reflects the future trend of distribution in Europe, away from complex networks of resellers and towards integrated supply chains.

Aviocom, based in Lelystad The Netherlands, is specialized in the Distribution & Sales of a wide range of specialty chemical products. "We are delighted to be joining forces with ANAC to deliver these world-class products to the aerospace industry in the Benelux." said Roy Klockenbrink, Managing Director of Aviocom B.V. The ANAC products will complement our line of materials and enables us to support the full Paint/Depaint process. Our customers will benefit from the availability of The Henkel surface treatment products (e.g. Turco exterior cleaners & paint strippers, Alodine conversion coatings & adhesion promoters) combined with the Akzo paint systems that will form an integral part of our technical support and expertise.

About Aviocom

Aviocom BV, based in Lelystad The Netherlands, was founded to bring single source procurement solutions to the aerospace industry. We are specialized in the Distribution & Sales of Specialty Chemical Compounds. Aviocom deals on a daily basis with both present and future technology needs: all products are subject to extensive quality control and are approved by major OEM, AMS or MIL specifications. All of our partners are major innovators and together we have acquired a wealth of knowledge and experience, and most importantly, we are eager to share it with you.

Aviocom BV has established a customer support organization designed to quickly meet your needs and expectations. Our breadth of products and experience in the aerospace industry allows Aviocom to quickly provide answers to your process questions.

Our claim "Propelled by Innovations" is the backbone of our business and success.
