

Kimberly Clark Aviation Approved Wipers

Creating Healthier, Safer, More Productive Workplaces

KIMTECH* Aviation MRO/OEM Wipers

Understanding that while surface preparation and cleaning is a very small part of the whole MRO and OEM aviation processes, it is just as crucial and requires precise, tailored products. All wipes are qualified and listed on QPL-AMS 3819 and are approved under BMS I5-5F aviation specifications.

Abrasive Surface Wipes

The most durable aviation wipe in our offering specifically designed for abrasive surfaces.

Aviation Abrasive Surface Wipes

KIMTECH A2, Polyamide/Polyester, 6 rolls/60 sheets/roll

Surface Preparation Wipes

Leading-edge material for optimum linting and extractables control. The ultimate in aviation precision wiping performance

Aviation Surface Preparation Wipes

KIMTECH P2, Polyester/Cellulose, 4 boxes/200 sheets/box
KIMTECH P2, Polyester/Cellulose, 10 packs/60 sheets/pack
KIMTECH P3, Rayon/Polyester, 8 boxes/50 sheets/box

Cleaning Wipes

An easy-to-implement lean cleaning solution that addresses waste reduction and productivity improvement around general wiping needs.

Aviation Cleaning Wipes

KIMTECH C2, Cellulose/Polypropylene, 1roll/900 sheets/roll
KIMTECH C3, Cellulose/Polypropylene, 6rolls/60 sheets/roll
KIMTECH C4, Cellulose/Polypropylene, 1roll/540 sheets/roll

Wet Wipe System

More controlled dispensing and application of solvent for reduced waste and better overall performance versus traditional bucket/decanter systems and disposable pre-saturated options

Aviation Wet Wipe System

KIMTECH W, 4 buckets, 22 x 24cm
For use with KIMTECH A2 and C3
