

Data Management Provider

With us turn Reach into a Strategic Advantage

Gaches Chimie and Aviocom are experts in the management and provision of Environment, Health and Safety (EHS) information.

In our quest for unparalleled service to our customers, we consider it as our responsibility to provide you with all the necessary information that you will need to use your chemical products in the safest conditions possible.

Our tailored approach to REACH and EHS information gives you access to a personalized internet platform that will alert you in real-time.

Safety Data Sheets are sent to you automatically by e-mail or by FTP server.

As the European regulation calls for gradual substitution of dangerous chemicals, we are also pro-active in determining whether or not chemical substances will become obsolete and could potentially stop your business!

What is REACH?

Reach is the EU regulation concerning the Registration, Evaluation, Authorization and restriction of Chemical substances.

REACH is adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals.

Looking for information concerning:

- Substances present in preparations
- The status of substances regarding the REACH regulation
- Preparations containing substances of very high concern
- The evolution of chemical regulations

Look no further, we have the Tool for you and even better we manage, control and provide you with all the necessary information on your specific chemical product portfolio.

Management of Product Obsolescence:

- We constantly are monitoring the risk of product obsolescence
- We notify you about obsolescence and potential obsolescence
- We make propositions for replacement equivalents or alternative products
