# The aerosols work much like a conventional spray gun.

## Spray2Fix provide paint technicians with a mobile high quality spot repair solution

With an operational Aerosol filling station, we are now extending the EMEA Spray2Fix product range by offering the full color pallet for Eclipse and Aviox (gloss quality only) as well as for the 58-series.

### Key benefits

Spray2Fix is engineered to contain multi-component products in one convenient, easy to use aerosol package.

Spray2Fix aerosol provides high output, larger spray patterns than conventional aerosols and excellent atomization with constant pressure.

The distinctive features of Spray2Fix provide paint technicians with a mobile high quality spot repair solution that is ready for use at any time.

In short Spray2Fix benefits include:

- Economical use of paint
- Quick drying
- Easy to use
- Professional paint results
- Accurate proportioning
